Agenda Item: 7.1 Parish Council 10th June 2025

Sutton-on-Trent Parish Council

Subject:	**To discuss the funding for a Feasibility Study to improve the footway from the village to the Sports Club**
Report by:	**Clerk to the Council** **Councillor Mark Moody**

1. Recommendation

To note the information received from Via Highways for producing a Feasibility Study to improve the footway link to the Sports Club from the village.

2. Background

The footway linking the Sports Club and the village is narrow, dark and potentially dangerous. Due to this our parishioners are reluctant to use this footway when events are held at the Sports Club.

The Sports Club has undergone and continues to have extensive improvements with more and more events being organised for the community. As a Parish Council we should look to support this facility. We should encourage our Parishioners to walk this short distance and not drive.

3. Present Position

We are requesting from members the approval to fund this Feasibility Study at a cost of £2,220+VAT as outlined in the document attached at Appendix 1.

The study will provide us with a detailed design, site investigations and reports, potential hazards, and potential construction costs.

From here we can look to push the authorities to fund this scheme along with exploring other funding options to complete these works.

Cllr Mark Moody
Portfolio Holder

Jayne Saunders
Clerk to the Council
